

Kordell M. Schrock

Education

- 2018–
Present **Bachelors of Computer Science**, *Iowa State University (ISU)*, Ames, *Expected Graduation: December, 2023*, Minor in Data Science.
Cumulative GPA: 3.3, Major GPA: 3.38
- 2016–2018 **Associates Degree**, *Marshalltown Community College (MCC)*, Marshalltown, *Graduated: 2018*.
Earned College Credits (57)
- 2016 **Earned Credits**, *Morningside College*, Sioux City, *Freshman*.
Earned College Credits (12)

Professional Experience

- 2022 **Workday** *Boulder, Colorado*.
Software Development Engineer Intern, currently worked in the Data Science space exploring systems reliability. Over the internship, we completed three different Data Science Projects looking at Workday's Jira data. We created a python script to import Jira data that solved the question of linking similar tickets with similar problems. This was an important metric because Workday in that department had no way of linking tickets with similar problems, which is helpful because they can help resolve problems quickly and efficiently instead of manually checking tickets. The python script automated a process for Data Analysts to check tickets.
- 2021 **CodePath** *Summer Internship for Tech Excellence (SITE) Remote*.
As a SITE intern, I deepened my knowledge of full-stack web development with React and Node JS. I received mentorship from Workday's technology teams along with CodePath's mentors as well. Throughout the summer we completed five full-stack applications including a capstone. Our capstone was to build a website for a pizzeria.
- 2021 **National Security Agency (NSA)** *Fort Meade, Maryland*.
As an Intern, I learned how the Agency functions and operates. While working in Research & Engineering, I finished the mandatory training and Metrics project. The Metrics project gave an insight on how the software teams currently are in tickets, whether they are Backlog, Work, On-Hold, etc. We automated the project to run automatically every month using a private Gitlab Runner to append and push the new data to a dashboard that updates synchronously using Kibana, CI/CD, JQL, and Python. The dashboard consisted of eight graphs that updated when new data arrives in the index dataset. This was helpful for the department to see the metrics on their software development overtime, per team. At the end of my internship, I was able to create a prototype of an Orbital VSAT Metrics program from scratch for system health monitoring.

- 2020 **Leidos Scientific Research Company Summer Research Intern.**
As an Intern, I worked on a Blockchain application that helps track the spread of Covid-19 to improve American healthcare, reduce healthcare care cost, detect Fraud, Waste and Abuse in Medicare Claims, improve clinical outcome and promote interoperability for researchers among related systems while protecting patient data sovereignty.
- 2019 **Stanford University College of Engineering Summer Undergraduate Research Fellowship (SURF).**
As part of the 17th Cohort, we conducted professional research at Stanford, specifically my research was within the Human-Computer Interaction Department. I enhanced the protocol of the Creative Drive Project, and we were able to run a pilot study. In addition, with this fellowship, our Cohort did a GRE Prep Course, Mentorship, Company visits within Silicon Valley, and Professional Development Workshops.
- 2018 **Big River Trading Co. Sac & Fox Tribe Of The Mississippi In Iowa.**
As an Intern, I learned how they conducted business and how they kept business relations. I got the chance to implement my ideas into the Company, and I optimized their Purchase Ordering Form. I made it way more efficient than the previous way. Now it just takes a couple of clicks.
- 2017–2018 **Meskwaki Bingo Casino & Hotel Food & Beverage Department.**
As a server of the Prime Cut Steak House, I provided optimal customer service, and I was responsible for the adherence and compliance of policies and procedures.
- 2016 **Meskwaki Inc. Sac & Fox Tribe Of The Mississippi In Iowa.**
As an Intern for Meskwaki Inc. I was given the opportunity to learn about their multiple different subsidiaries. I was able to explore the workings of Woodlands Construction, Meskwaki Travel Plaza, Big River Trading Co., and their Inventory Warehouse.

Honors

- 2018 Marshalltown Community College Dean's List
- 2019-2021 ISU College of Engineering Dean's List
- 2019 Stanford University SURF 17th Cohort Recipient
- 2019 AISES Intel Undergraduate Growing the Legacy Scholarship Program - \$5000
- 2019 Cobell Undergraduate Scholar - \$5000
- 2019 SAP Engineering Scholars
- 2019 Deere & Co Minority Engineering Scholarship - \$1076
- 2019 ISU Engineering Program of Study Award - \$2600
- 2019 Meskwaki Higher Education Award - \$9000
- 2020 SACNAS Travel Award
- 2020 Dartmouth College ASURE Recipient
- 2020 Cobell Undergraduate Scholar - \$6000
- 2020 Meskwaki Higher Education Award - \$9000
- 2020 Los Alamos National Laboratory Honorary Award - \$1000
- 2021 AISES Intel Undergraduate Growing the Legacy Scholarship Program - \$5000
- 2021 Meskwaki Higher Education Award - \$9000
- 2021 Arthur A. Collins Education Fund in Computer Science Award - \$1000
